OBJECTIVE

My main objective is to always keep learning. If I were given the opportunity, I can prove to you that my curious nature will be an asset to your team, coupled with my ability to solve problems and collaborate with other developers. You will not regret hiring me, what I lack in experience, I make up for with enthusiasm and willingness to learn and improve.

LEADERSHIP

Head Boy – Grade 7(Arcadia Primary School): At a young age through this role, I was taught communication and leadership skills by representing the student body.
